Our own quotations are unchanged, but buyers report that while most holders are indifferent about selling, those who do wish to realize will accept below the quoted figures. The market closed drooping. A recent Liverpool circular said that in that market the apparent strong statistical position of cotton is more than neutralized by diminished

consumption, and that remaining supplies, in the face of a rapidly maturing new crop, must be offered at low rates to prove acceptable. Quotations at the Memphis cotton exchange were as follows: Low middling ...... sood middling.... Middling fair.

Market quiet; sales 100 bales, of all of which spinners took 75 bales, speculators 25. Dusty cottons quote 5@6]c; stained, 7@93. Price of middling same time last COTTON STATEMENT.

THE PRODUCE MARKET Was exceedingly du'll yesterday, with small arri-vals. The Chicago Tribune says of trade prospects: "Trade is not stagnant, but s reduced in volume, and the rate of profits is also low. No change is look d for among bankers or business men until midsummer is over. The fall activity should begin by the middle of August, and there are many reasons for tninking it will show an improvement over preceding seasons. No one looks for a sudden leap into good times, but with good crops there ought to be a fair trade and an improved tone in commercial and financial circles." The Chicago telegrams received yesterday by Huls & Co. reported: "Receipts of wheat, 65, 000 Lushels; August, 9150; September, 9440. R ceipts of corn, 115,000 bushels; August, 44%; September, 45%.
